THE McKinley bill has caused a scarcity of water in Bath county and some of the farmers have been obliged to sell their cattle at prices greatly in excess of those prevailing under the last Democratic Free-trade act.

J. C. McDearmon was nominated for Congress by the Democrats of the Ninth Tennessee District after 729 ballots in the convention. And yet the Democrats say that the Republicans are the only fellows who want the offices.

ANOTHER cholera ship has arrived. Thirty-two deaths on the passage. Over a thousand passengers and the scourge among them. Couldn't the state au-thorities and the Federal administration agree upon shipping the Legislature to Hamburg as a measure of terrible retaliation?—Kentucky Journal.

Can't spare it; too good a Republican campaign document.

THE Democratic papers are talking a good deal about Mr. CLEVELAND's "popularity." He carried the state of New York for Governor by nearly 200,000 majority. A year or two later he won the state by a scratch of 1,070 stolen votes. Four years after he lost it by 13,000. Yes; Mr. CLEVELAND is very popular.

GOVERNOR FLOWER of New York with commendable promptness, authorized the purchase of Fire Island, to be used as a retreat for quarantined passengers, and furnished the first payment, \$50,000 of the \$210,000 required to secure it. The Normannia's cabin passengers were transferred to the Stonington and later were sent to the hotel on the island where they are comfortably cared for. LAST year, according to the Commissioner of Pensions, 25,000 pensioners were dropped from the rolls. Next year, says The Inter-Ocean of Chicago, he estimates that the march 75 will swallow up no less than 40,000 and the following year not less than 23 Cents 50,000, with no original claims to add. It sees the municipality of Jersey City redeemed from Democratic ring rule by the election of a Republican Mayor. It sees the Democratic party no longer united under the remorseless and vindictive rule of "Boss" ABRETT, split into factions, and looking anxiously for

TWIN EGGS.

A Feat Over Which a New Jersey Hen Cackled Proudly.

Farmer Corseglia, of South Jersey, has sent to the Philadelphia Record a rather neat thing in the way of freak eggs, the production of one of his Cochin hens. What the hen tried to do was to lay two eggs at once, but she only partially succeeded. Having produced one complete egg, correct in size and shape, she managed, in trying to instantly duplicate it, to inclose in it a flexible sac of semi-opaque akin, which also contained the complete yolk and white of another egg. The effect was, therefore, that of a hard egg and an egg that has been dropped out of its shell both inclosed in a seamless bag about four inches long and two inches wide. After accomplishing this very unusual feat Farmer Corseglia's Cochin hen raised such a disturbance in order to call attention to her achievement that she was set upon by half the feathered in-habitants of the barnyard and forced to roost on the henhouse roof to escape their jealous wrath. The row having attracted a farm hand's notice he investigated the cause and the Cochin's prize production was carefully placed in a cigar box filled with bran and taken to Farmer Corseglia

PROTECTION

For Ohio Against the Importation of Cholera.

Sanitary Measures Adopted by the State Board of Health.

Arrangements to be Made by Which Each Emigrant Coming to the State Shall Be Furnished With a Certificate of Health-Pittsburgh Conference.

COLUMBUS, O., Sept. 13.—Secretary Probst, of the state board of health, returned Monday morning from Pittsburgh, to which place he had gone for a conference with the executives of the health boards of Pennsylvania, West Virginia and Ohio.

At this conference a resolution was adoped, a copy of which was Monday by Dr. Probst Secretary Foster, requesting that arrangements be made by which each emigrant coming into the state shall be furnished with a certificate of health by some competent national authority. It is desired that the certificate give the name of the examiner, name of the emigrant, duration of detention after exposure to the cholera, port from which they shipped and port of entry. If the certificate appears sufficient, the holder will be allowed to pass; otherwise all such persons will be held in quarantine.

The question of what Pittsburgh would do to protect Ohio while protecting itself was taken up also at the conference. The Pittsburgh authorities propose to provide a floating hospital for cholera patients, but this brought forth a protest from the Ohio and West Virginia authorities on the ground that it would pollute the water supply of river towns. It was then agreed to establish an inspection hospital station years, New Jersey is to have an election outside of the city limits, and, if money can be secured, to provide such arrange ments as already made by Ohio.

Dr. F. E Kitzmiller, of Piqua, telegraphed to Secretary Probst, Monday, that he has found and examined the family arriving on the ship Stuttgart who slipped through the quarantine at Baltimore and settled near Piqua.
